Know Your Benefits

At Center for Social Dynamics, we value your contributions to our success and want to provide you with a benefits package that protects your health and helps your financial security, now and in the future. We continually look for valuable benefits that support your needs, whether you are single, married, raising a family, or thinking ahead to retirement. We are committed to giving you the resources you need to understand your options and how your choices could affect you financially.

This guide is an overview and does not provide a complete description of all benefit provisions. For more detailed information, please refer to your plan benefit booklets or summary plan descriptions (SPDs). The plan benefit booklets determine how all benefits are paid.

A list of plan contacts is included at the back of this guide.

The benefits in this summary are effective:

January 1, 2026 - December 31, 2026

Who Can You Cover?

WHO IS ELIGIBLE?

In general, full-time employees working 32 or more hours per week are eligible for the benefits outlined in this overview.

You can enroll the following family members in our medical, dental and vision plans.

- Your spouse (the person who you are legally married to under state law, including a same-sex spouse.)
- Your same or opposite sex domestic partner
- Your children (including your domestic partner's children):
 - Under age 26 are eligible to enroll. They do not have to live with you or be enrolled in school. They can be married and/or living and working on their own. Please note, orthodontia coverage is only available to members up to the age of 19.
 - Over age 26 ONLY if they are incapacitated due to a disability and primarily dependent on you for support.
 - Named in a Qualified Medical Child Support Order (QMCSO) as defined by federal law.

Please refer to the Summary Plan Description for complete details on how benefits eligibility is determined.

WHO IS NOT ELIGIBLE?

Family members who are not eligible for coverage include (but are not limited to):

- Parents, grandparents, and siblings.
- Any individual who is covered as an employee of Center for Social Dynamics cannot also be covered as a dependent.
- Employees who work fewer than 32 hours per week, temporary employees, contract employees, or employees residing outside the United States.

ENROLLMENT PERIODS

Coverage for new full-time employees begins on the 1st of the month following your date of hire. New employees who do not make an election within 30 days of becoming eligible will have to wait until the next Open Enrollment period to do so.

After that, Open Enrollment is the one time each year that employees can make changes to their benefit elections without a qualifying life event.

Notify Human Resources within 30 days if you have a qualifying life event and need to add or drop dependents outside of Open Enrollment. Life events include (but are not limited to):

- Birth or adoption of a baby or child
- Loss of other healthcare coverage
- Eligibility for new healthcare coverage
- Marriage or divorce

Getting Care When You Need It Now

WHEN TO USE THE ER

The emergency room should not be your first choice unless there is a true emergency—a serious or life threatening condition that requires immediate attention or treatment that is only available at a hospital.

WHEN TO USE URGENT CARE

Urgent care is for serious symptoms, pain, or conditions that require immediate medical attention but are not severe or life-threatening and do not require use of a hospital or ER. Urgent care conditions include, but are not limited to: earache, sore throat, rashes, sprains, flu, and fever up to 104°.

WHEN YOU NEED CARE NOW

What do you do when you need care right away, but it's not an emergency?

- Call Kaiser's 24/7 NurseLine at 800-464-4000
- Find an urgent care center by visiting kp.org

PREVENTIVE OR DIAGNOSTIC?

Preventive care is intended to prevent or detect illness before you notice any symptoms. Diagnostic care treats or diagnoses a problem after you have had symptoms.

Be sure to ask your doctor why a test or service is ordered. Many preventive services are covered at no out-of-pocket cost to you. The same test or service can be preventive, diagnostic, or routine care for a chronic health condition. Depending on why it's done, your share of the cost may change.

Whatever the reason, it's important to keep up with recommended health screenings to avoid more serious and costly health problems down the road.

Medical

Medical coverage provides you with benefits that help keep you healthy, like preventive care screenings and access to urgent care. It also provides important financial protection if you have a serious medical condition.

Health Savings Account (HSA)

A Health Savings Account is a tax-advantaged, portable (you own it!) savings account available if you enroll in the HSA administered by Navia Benefit Solutions.

You can contribute pre-tax money to an HSA account to save for out-of-pocket healthcare expenses. In addition, any money that you don't spend grows year after year and can be used in the future, even after you retire.

In order to be eligible for an HSA account you need to be enrolled in the **Kaiser HDHP 1750** plan.

ACCOUNT CONTRIBUTIONS

Annual Maximum Contribution*	
Employee	\$4,400
Employee + Family	\$8,750
The company contribution is deposited on a per pay period basis into employee's HSA accounts.	

***Contribution limits:** The IRS limits the total amount you can contribute to a Health Savings Account each calendar year and contributions made by your employer count toward the total. In 2026, the limit is **\$4,400** for an individual and **\$8,750** for a family. If you're over 55, the IRS allows you to contribute an additional \$1,000 per year—this is called a "catch-up contribution."

USING YOUR MONEY

You can use the money in your account to pay for qualified medical expenses that are not paid for by your high deductible health plan (HDHP). For a full list of those expenses, go to [irs.gov](https://www.irs.gov). In general, your HSA can be used for these expenses without penalty:

- Medically necessary expenses that are not covered by your health plan including deductibles and coinsurance
- Dental care services
- Vision care services
- Prescription drugs
- Certain medical equipment

When possible, use your HSA debit card to pay for expenses. Make sure that you keep records of your receipts. You will need them to prove that you spent the money on qualified expenses if you are audited by the IRS. Click on the icon to watch a video.

ELIGIBILITY

You are not eligible to open or contribute to an HSA account if you are:

- Covered by a non-high deductible health plan
- Enrolled in a regular healthcare flexible spending account (you or your spouse count)
- Covered under Medicare or Medicaid
- Enrolled in Tri-Care
- Claimed as a dependent on someone else's tax return

SETTING UP YOUR HSA

When you elect an HSA account, you will receive an email from Navia to complete your enrollment process through www.Naviabenefits.com. Once you've established your HSA, you may start incurring eligible expenses for distribution.

Flexible Spending Account (FSA)

A Flexible Spending Account lets you set aside money—before it's taxed—through payroll deductions. The money can be used for eligible healthcare and dependent day care expenses you and your family expect to have over the next year. The main benefit of using an FSA is that you reduce your taxable income, which means you have more money to spend. And reimbursements from your FSA accounts are tax-free. The catch is that you have to use the money in your account by our plan year's end. Otherwise, that money is lost, so plan carefully. You must re-enroll in this program each year. Navia administers this program.

IMPORTANT CONSIDERATIONS

- There's no "crossover" spending allowed between the healthcare and dependent care accounts.
- Expenses must be incurred between 01/01/25 and 12/31/25
- Elections cannot be changed during the plan year, unless you have a qualified change in family status (and the election change must be consistent with the event).
- You can keep (roll-over) up to **\$680** of unused money for use in the next plan year. Unused amounts above **\$680** will be lost, so it is very important that you plan carefully before making your election.
- FSA funds can be used for eligible expense incurred by you, your spouse, and your tax dependents only. Your spouse or tax dependent children do not have to be covered on the Center for Social Dynamics health plan.
- You cannot obtain reimbursement for eligible expenses for a domestic partner or their children, unless they qualify as your tax dependents (Important: questions about the tax status of your dependents should be addressed with your tax advisor).
- Keep your receipts as proof that your expenses were eligible for IRS purposes.

TAX-FREE HEALTHCARE FSA

Eligible expenses include medical, dental, and vision costs including plan deductibles, copays, coinsurance amounts, and other non-covered healthcare costs for you and your tax dependents. You may access your entire annual election from the first day of the plan year and you can set aside up to **\$3,400** per year.

If you are enrolled in the Kaiser HDHP 1750 Plan and you enroll in the HSA, you can only participate in the Limited Purpose Healthcare FSA, which covers out-of-pocket vision and dental expenses ONLY.

TAX-FREE DEPENDENT CARE FSA

Eligible expenses may include daycare centers, in-home childcare, and before or after school care for your dependent children under age 13. Other individuals may qualify if they are your tax dependent and are incapable of self-care. It is important to note that you can access money only after it is placed into your dependent care FSA account.

All caregivers must have a tax ID or Social Security number. This information must be included on your federal tax return. If you use the dependent care reimbursement account, the IRS will not allow you to claim a dependent care credit for reimbursed expenses. Consult your tax advisor to determine whether you should enroll in this plan. You can set aside up to **\$7,500** per household for eligible dependent care expenses for the year.

Dental

Regular visits to your dentists can protect more than your smile; they can help protect your health. Recent studies have linked gum disease to damage elsewhere in the body and dentists are able to screen for oral symptoms of many other diseases including cancer, diabetes, and heart disease.

Center for Social Dynamics provides you with a comprehensive coverage through Principal.

Taxes: The IRS considers a life insurance benefit of \$50,000 or more taxable. You will see the value of the benefit included in your taxable income on your paycheck and W-2.

Disability Insurance

If you become disabled and cannot work, your financial security may be at risk. Protecting your income stream can provide you and your family with peace of mind.

LONG-TERM DISABILITY INSURANCE

Long-Term Disability (LTD) coverage pays you a certain percentage of your income if you can't work because an injury or illness prevents you from performing any of your job functions over a long time. It's important to know that benefits are reduced by income from other benefits you might receive while disabled, like workers' compensation and Social Security.

If you qualify, long-term disability benefits begin after short-term disability benefits end. Coverage is provided by Principal.

401(k) RETIREMENT SAVINGS PLAN

Center for Social Dynamics believes planning for your future is important and wants to help you build retirement security. Although Center for Social Dynamics does not currently offer a company match, participating in the 401(k) plan is still a great way to start planning for retirement. Once you are 21 and complete 1 month of service you may join the plan the first of the following month.

Here are some of the plan's valuable features:

- The 2026 IRS Contribution limit is \$24,500. The additional catch-up contribution limit for individuals aged 50 and over is an additional \$8,000. Starting in 2026, if you are 60-63 you can contribute an additional \$12,000 up to a maximum of \$36,500 (all ages are as of December 31, 2026. You do not need to wait until your birthday to be in this category, it begins on January 1st.
- You have a choice of plans to participate in:
 - Traditional CSD 401(K): Funds that you acquire are taxed after you reach the appropriate distribution age and request the funds.
 - Roth 401(K): Taxes the amount as you contribute and doesn't get taxed when you request the funds
- It's convenient. Funds are deducted automatically from your paycheck. Your traditional 401(k) contributions are taken out before taxes and can lower your taxable income.

Cost of Coverage

Center for Social Dynamics pays for the full cost of coverage for employee only coverage on the Kaiser HDHP Medical plan as well as the Principal Dental and Basic Life, AD&D, LTD and Curalinc coverage. You share in the cost of coverage for other plans and coverage levels.

In general, you pay for health coverage before federal, state, and social security taxes are withheld, so you pay less in taxes. Please note that unless your domestic partner is your tax dependent as defined by the IRS, contributions for domestic partner coverage must be made after-tax. Similarly, the company contribution toward coverage for your domestic partner and his/her dependents will be reported as taxable income on your W-2. Contact your tax advisor for more details on how this tax treatment applies to you. Notify Center for Social Dynamics if your domestic partner is your tax dependent.
